FY-17 Active-Duty Promotion Selection Board Procedures - Update

- In alignment with current Navy Talent Management initiatives, the following procedural changes are incorporated into the FY-17 board season starting in January 2016, to ensure that the best and fully qualified officers are selected regardless of seniority.
  - During previous board seasons, records have been briefed in order of seniority. The records will no longer be briefed in order of seniority.
  - During previous board seasons the records have been identified as above, in and below the promotion zone by a stamp placed on the record summary. These zone identifying stamps will no longer be placed on the record summary.
  - Below zone records will still have a separate initial review process. If a below zone record is selected for further consideration, the record will briefed in the same manner as the records in and above the promotion zone.
